Classes:

The Reaper: Capable of unleashing devastating combos, the Reaper can absorb the strength of his allies to improve his own and deal large amounts of damage while enduring the fiercest assaults. At the end of a fight, he can siphon the remaining energy of his foes to regenerate himself.

The Paladin: strong in both healing spells and offensive magic, the Paladin has a high defense and can use a wide range of useful skills.

The Electrokinest: A class using lighting magic to strike down its opponents. The Electrokinest can summon powerful lightning storms and paralyze his targets.

The Engineer: A class with several unique features: several gun spells to inflict direct damage, and a “trap system” which uses capacitors to set powerful traps causing large amounts of damage or various status effects when activated.

The Dark Knight: A very sturdy class, capable of inflicting devastating status effect while protecting the group.

The Berserker: The colossal strength of the Berserker turns most basic attacks into deadly blows.

The Lancer: His piercing attacks can get through the strongest armor. The Lancer has no problems damaging even the toughest enemies.

The Monk: He can adapt to any combat situations. Whether he needs strength or protection, the Monk can improve his characteristics to use powerful combos.

This game has an interesting system where you pick a character, then you get additional party members that vary (archer, priest wizard etc.). You can also chose a skill to begin the game with. The combat is nice and has a 90's final fantasy feel to it. There are lots of characters to chose from (main characters) and the main enemy is **POWERFUL** overall a good game and the translation is quite good..
